

GENERAL FEATURES

- Gas spring system
- Stopping system, shock absorbing mechanism for easy & quick release of the saw head after the cut
- Cutting at standard angles and any intermediate angles
- Easy grip ergonomic handle
- Custom designed fork+turntable connection system, which ensures set square accuracy
- Thermal protection switch
- User friendly clamps. Can be tilted to any direction, tightened with one move

STANDARD EQUIPMENT

- Twin pneumatic clamps
- 16" carbide tipped saw blade
- Air gun
- User's manual

OPTIONAL EQUIPMENT

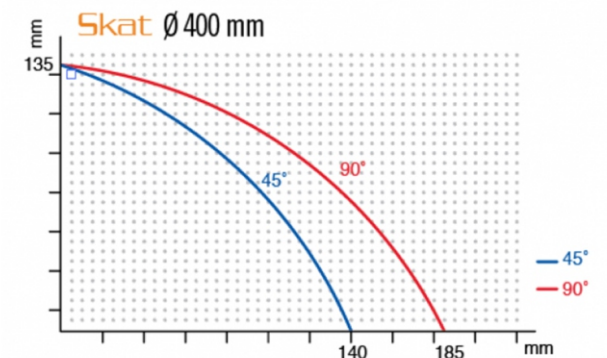

- Extra Saw blade
- Infeed/outfeed table
- Mechanical spring system
- Vertical pneumatic clamps

SPECIFIC CAPACITIES

- Heavy duty construction for long machine life.
- Cutting of profiles at fixed angles of 15°-22,5°-30°-45°-90° via lock pin and at intermediate angles via fixing handle.
- Machine has been designed in accordance with CE, UL, CSA Safety Directives
- Also available in 14" version (model: Pegasus-06 M)
