

**TUCANA-02 AS: Automatic Angular End Milling Machine with Quick Cutter Change Spindle**

**Standard Equipment**

- ▶ Air gun
- ▶ User's manual
- ▶ Pneumatic twin vertical clamps

**Optional Equipment**

- ▶ Milling cutter set
- ▶ Profile fixtures

**Technical Features**

▶ Our horizontal end-millers are specially designed for milling sets of profiles (both aluminum and vinyl) in which the cutter unit needs to be changed several times in the same set. Machine is equipped with a quick-release cutter holder making different applications on profiles quicker and easier.

The cutting zone is fully guarded to protect the operator in all the machining operations.

Technical features and specifications are subject to change without prior notice.
