

TUCANA-02 M: Manual End Milling Machine

Standard Equipment

- ▶ Air gun
- ▶ User's manual
- ▶ Pneumatic twin clamps

Optional Equipment

- ▶ Milling cutter set
- ▶ Profile fixtures

Technical Features

▶ Our horizontal end-millers are specially designed for milling sets of profiles (both aluminum and vinyl) in which the cutter unit needs to be changed several times in the same set. The cutting zone is fully guarded to protect the operator in all the machining operations.

Technical features and specifications are subject to change without prior notice.
