

### GENERAL FEATURES

DKN-300 is a manual roller table with a digital read-out. It is available in 10' (3 m), 15' (4.5 m), or 20' (6 m). The digital read-out enables precise reading of cutting measurement, eliminating inaccurate and repetitive use of a measuring tape. Manual positioning via hand wheel. It can be used with various types of saws such as upcut saws, v-cut saws, miter saws, chop saws.
