

DRAGON – Hot Air PVC (Vinyl) Profile Bending Machine

Technical Features

- For hot air bending of vinyl profiles
- Equipped with control panel with timer for temperature and heating time display
- Manual pulling of profile
- Equipped with mold clamps
- Heater resistance 15 kW
- Max. 1/2 profile bending width 1800-700 mm (71" – 28")
- Max. 1/2 profile bending height 1800-300 mm (71" – 12")
- Overall Dimensions (l x w x h) 5000x2800x900 mm (197"x110"x35")
- Weight: 850 kg (1,870 lbs)
- 3-Phase 220V/440V – 400V 50/60Hz
