

GENERAL FEATURES

- Heavy duty automatic end milling machine designed for horizontal end milling of large aluminum and vinyl extrusions.
- Hydro-pneumatic cutter stack feed
- Adjustable stops for 4 different profiles
- Fully guarded end milling area
- Pneumatic clamping
- Automatic return to start position after horizontal milling operation
- Robust machine body
- Profile support conveyor
- End milling profile dimensions (H x W): 6-1/2" x 4" (165×100 mm)
- Max. cutter diameter: Ø 6.3" (160 mm)

STANDART EQUIPMENT

- 1 x pneumatic vertical clamp
- 1 x pneumatic horizontal clamp
- Air gun
- Chip collector manifold

AUTOMATIC END MILLING MACHINE FOR LARGE EXTRUSIONS
